

Your clear choice for packaging

"You build trust only by keeping commitments"

Founded in 1991, we provide Best-in-Class Packaging machines for Primary, Secondary and End of line packaging needs at optimal costs.

To deliver excellent value to our customers, we follow a 'two-prong' strategy:

- Distributing well-known packaging machines backed by our sales and support network
- License manufacturing of End of Line machines in our joint venture manufacturing facility in China.

Our packaging solutions serve the needs of a large array of multi-national, regional and local companies in Food, Beverage, Personal care and Home care industries.

We count companies like Unilever, P&G, J&J, Nestle, Colgate, Kraft, Danone, Coca-Cola, Dole Foods, Del Monte and many others in our customer list.

We owe our success to our esteemed customers and our reliable partners, both inspiring us to deliver 'Customer Delight' and not mere satisfaction. It's an endeavour we take very seriously.

Single source responsibility: A partnership with us saves you time and money and allows you to concentrate on things more important to you. We take single source responsibility to resolve your packaging needs.

- Requirements analysis
- Layout design and equipment selection
- Line integration, Electrical and Mechanical synchronization
- Safety
- Factory Acceptance Testing and Documentation
- Installation, Commissioning and Training
- After sales support and Annual Maintenance Contracts
- Spares supply and Re-training

We package your ideas, so you can spread them to the world.

www.clearpack.com

Your brands are indeed good ideas in a package. Packaging these ideas call for investing in the right solutions, a key decision for any enterprise.

Not only do we strive to provide optimal packaging solutions for your ideas but also the ones that address the concerns of our fragile environment.

Lower packaging material usage, minimizing waste, low energy consumption and smaller carbon footprint are important considerations for packaging solutions we propose.

Every solution reflects our approach to maximize returns for our customers.

Manufacturing capabilities

Our facility in South China manufactures some machines in our range under license of our European and US partners. In-house machine shop, quality control, assembly and testing facilities allow us to build these machines to the same exacting standards as our overseas partners.

Be it supply of a stand-alone machine or a complex integrated turnkey packaging line, we put our experience and engineering know-how to work for our customers.

Five dedicated product lines. One world.

1. Filling and related machines for bottles
2. Filling and packing machines for flexible laminates
3. End of Line packaging machines & conveyors
4. Shrink packaging machines & polyolefin shrink films
5. Turnkey packaging lines

Experience & Reliability

Over last 20 years, we have installed and commissioned several machines successfully in Asia and Middle east for various applications in primary, secondary and end-of-line packaging.

Our cumulative expertise and knowledge is available to our customers to solve their packaging problems or build innovative packaging solutions from grounds up.

Optimal packaging solutions for your ideas

This communication offers you insights into our '360 degree approach to packaging solutions', with each solution being distinct to your specific needs.

- Filling and related machines for bottles
- Filling and packing machines for flexible laminates
- End of Line packaging machines & conveyors
- Shrink packaging machines & polyolefin shrink films
- Turnkey packaging lines

Filling and related machines for bottles

Unscrambler

Filler & Capper

Labeller

From standalone machines to line integration.

We can fill liquids in a wide viscosity range. Our Net Weight fillers handle the products gently and hygienically. High precision of filling ensures low give-away for our customers resulting in faster ROI.

We also supply Bottle feeding equipment (unscramblers or depalletizers) and Labelling equipment to decorate and label the bottles.

Filling and packing machines for flexible laminates

Horizontal Form Fill Seal machines

Stick pack machines

Flow wrapping machines

Thermoforming and Tray Sealing machines

Overwrapping Machines

From simple packaging to innovative solutions.

Flexible Packaging can offer solutions from simple to innovative packages involving different shapes and functionality. Be it Sachets, Stand up pouch (doypack), Stick pack or Pillow Bags we have the right machines to choose from. We can fill powders, granules, low and high viscosity liquids thanks to variety of dosing solutions such as volumetric cup, augur filler, multi head weigher, piston filler, flow meter and others.

For cosmetic or other reasons some products need to be overwrapped with BOPP films and we offer world leading machines to service this need.

* Exclusive distributor in India, Indonesia, Malaysia, Philippines, Singapore, Thailand and Vietnam.

End of Line packaging machines and conveyors

Case Packer for RSC cases

Case Packer for Wrap Around cases

Case Erector, Case Sealer

Shrink Wrap (Film only, Pad + Film, Tray + Film)

Case Palletizer

Conveyor Bottles / Cases

Cost effective and highly reliable end of line automation

Automation of end of line packaging process while desirable is often compromised due to challenges of ROI. Being cost effective and highly reliable at the same time, our end of line automation machines help to resolve this dilemma for our customers. Ask for our representative to discuss your needs today and allow us to help you meet your automation objectives.

APSOL
AUTOMATIC PACKAGING SOLUTIONS

INVOLVO
we wrap it, whatever. since 1971.

Shrink packaging machines and polyolefin shrink films

Semi Automatic Shrink Wrapper

Automatic L Sealer

Hi-speed Shrink Wrapper

Shrink Tunnels

Polyolefin Shrink Film

From multiple applications to capacities.

With our full range of shrink wrapping machines and high performance Polyolefin shrink film, we can shrink wrap products for many different industries such as Food (fresh and processed), Seafood, Personal Care, Cosmetics, Home Care, Printing & Stationery, Gifts, Toys, Software, Multimedia, Pharmaceuticals and many more.

Turnkey packaging lines

Understanding Project Specifications

Line Layout Design

Electrical and Mechanical Integration

Equipment Supply

Factory Acceptance Tests

Installation and Commissioning

Training and Documentation

Complete Project Management and Execution

From concept to commissioning.

We have proven capabilities to provide our customers with turnkey packaging solutions. Our team of project managers and engineers undertake all activities starting from understanding your stated and unstated needs, proposing suitable technical solutions, line layouts, electrical and mechanical integration of various machines, listing down complete scope of supply including utilities, project timelines, factory acceptance tests, installation-commissioning, training and handover of the agreed supply.

Our aim is to execute projects with as optimal cost as possible to enhance ROI for our customers

After sales support, Spares and Service

After sales support is something that differentiates us from other companies in this field. This is biggest value we add to the machines we supply. With our several ofces in Asia and Middle East and team of trained service engineers in these locations, we aim to keep high 'up-time' for the machines we supply.

Our team of engineers test machines before dispatch , install and commission machines as per acceptance parameters and train customers staff to complete new machine supply.

Documentation in local language, proactive preventive maintenance visits, AMCs, re-training are services we provide to ensure that your machines are always in good condition and production-ready.

We continually invest in training our service engineers so that they are able to deliver under tight time constraints.

Why Clearpack?

There are many things you consider while choosing your packaging partner.
Here are some reasons we give, for you to profit from us.

Solution Orientation

- Provide solutions at optimal cost through license manufacturing strategy where possible
- Long term partners to customers-not mere suppliers

Localisation

- Local service and training support
- Quick response time enhances equipment uptime
- Local project management teams

Best-in-Class Focus

- Offer products from Industry leading supplier-partners
- Vast packaging knowledge & industry experience available to our customers
