

CP 500 HS / CP 700 HS Intermittent Side Sealer + Tunnel

We walk an extra mile, to see our customer smile!

CP 500 HS & CP 700 HS

CP 500 HS / CP 700 HS Intermittent Side Sealer

Modularity and excellent price/quality ratios are the main features characterizing the Automatic Intermittent Side Sealers of the CP series. Compared to the traditional L-sealing hood packers, the CP series provides higher outputs as well as the possibility of using Polyethylene film, besides the traditional shrink films. The CP series of modular sealers with shrink tunnel includes different models for various ranges of output depending upon product dimensions.

Features

- Continuous packer with 2 belts
- Cross sealing bar with PTFE-coated sealing blade controlled by Inverter and Encoder
- IN/OUT control modules with 16 digital inputs/outputs
- Conveyor closing system included
- Motorized center seal system
- 20 storable programs
- Lateral motion device of the longitudinal sealer
- Reduced power consumption
- Compliance with CE regulations

Technical Specifications**

Model	CP 500 HS	CP 700 HS
Type	Side Seal	Side Seal
Installed Power	2500 W	2700 W
Compressed Air Pressure	6 Bar	6 Bar
Compressed Air Consumption	0,6 NI/p	0,6 NI/p
Sealing Bar	500 mm	700 mm
Maximum pack height	200 mm	250 mm
Speed of Conveyors	11-45 m/min	11 - 45 m/min
Average Output per hour	up to 6000 pph	up to 4200 pph **
Maximum size of film reel	600-ø 350 mm	950 - ø 350 mm
Machine size	2180 x 1545 mm	2625 x 1895 mm
Machine net weight	h 1525-1655 mm 730 kg	h 1625-1755 mm 950 Kg
Usable Shrink Films	Polyolefin Film up to 30 µ	up to 30 µ

*“We don't just sell machines,
We provide solutions...”*

Our packing specialists will provide you the most efficient and energy saving packaging system for your products
