

CP 6000CS

INOX AUTOMATIC L-SEALER

We walk an extra mile, to see our customer smile!

CP 6000CS

CP 6000CS INOX

Modularity and excellent price/quality ratios are the main features characterizing the automatic side sealers of the CP series. All the models of this range can be supplied with or without shrink tunnel.

Compared to the traditional L-sealing hood packers, the CP series provides higher outputs as well as the possibility of using Polyethylene film, besides the traditional shrink films.

The CP series of modular sealers with shrink tunnel includes different models for various ranges of output depending upon product dimensions.

Features:

- Automatic I-sealer with shrink tunnel
- Conveyor closing system included
- Motorized center seal system
- 4,3" graphic lcd control panel with 32-bit microprocessor
- Automatic control of the sealing bar height
- Possibility of packing single packs or multipacks
- Speed of conveyors electronically adjustable
- Process statistics
- Reduced power consumption

Low Quality

Technical Specifications**

Model	CP 6000CS
Power Supply	380-415 3PH-N-PE 220-240 3PH-PE 50/60
Compressed air pressure	6 bar
Sealing bar	640 x 510 mm
Installed Power	3100 W
Maximum pack height	200
Speed of Conveyors	10-30
Machine Size	2180 x 1545 h 1525 - 1655
Machine net weight	660 kg

Our packing specialists will provide you the most efficient and energy saving packaging system for your products
